PROFESSIONAL SUMMARY

System Administrator specialized in Offensive Security, with 3 years of hands-on experience attacking and securing Active Directory, Linux and Windows environments. Holding CPTS, Cisco CEH, eJPTv2 and completed CRT0 training (exam pending). Solved 110+ CTF machines on HackTheBox, including advanced Pro Labs (Offshore, Zephyr, P.O.O.). Full lab documentation, CVE research, and penetration testing write-ups published at judgedbykira.github.io/portfolio.

TECHNICAL SKILLS

Penetration Testing & Security

- Active Directory Attacks (Kerberoasting, RBCD, DACL Attacks)
- Web Application Pentesting (OWASP Top 10)
- BloodHound, Mimikatz, Cobalt Strike
- Metasploit Framework, Burp Suite, Nmap, Wireshark
- MITRE ATT&CK Framework, CVE analysis

Projects & Labs

- Created a web portfolio where my projects are documented. judgedbykira.github.io/portfolio
- 110+ documented CTF write-ups covering full exploitation steps and methodology. [View Write-ups](#)
- Authored Python exploitation scripts for recent CVEs, each paired with a Docker lab to reproduce the vulnerability, a technical PoC, and mitigation guidance. [View CVE Research](#)

Scripting & Automation: Bash, Python, PowerShell

Frameworks: OWASP, CWE, CVSS v3.1

WORK EXPERIENCE

Systems Administrator & Security Analyst — *Hotel Paradise Park*

Feb 2025 – May 2025

- Performed **web and Active Directory penetration tests**, identifying and reporting critical security vulnerabilities
- Produced detailed **technical security reports** including CVSS scoring, risk classification, and remediation guidance
- Administered **Windows Server and Linux** environments, managing Active Directory, DNS, DHCP, and network services

IT Technician — *MediaMarkt*

April 2026 – May 2026

- Customer service and teamwork, managing priorities in a dynamic environment

PRACTICAL EXPERIENCE

CTF Player & Security Researcher — *HackTheBox*

Sep 2023 – Present

- Completed advanced **Pro Labs** (Zephyr, P.O.O., Offshore) simulating real-world enterprise environments with complex Active Directory and web vulnerabilities including **Red Team** techniques such as defense evasion and C2 usage.
- Solved **110+ machines** with documented methodology and write-ups — <https://app.hackthebox.com/public/users/1917008>

CERTIFICATIONS

- **CRT0** – Certified Red Team Operator, Zero Point Security (*Exam Pending*)
- **CPTS** – Certified Penetration Testing Specialist, HackTheBox — 2025
- **CEH** – Certified Ethical Hacker, Cisco — 2025
- **eJPTv2** – Junior Penetration Tester, INE Security — 2025
- Ethical Hacking Fundamentals – Hack4u — 2024

EDUCATION

Higher National Diploma in Network and System Administration

(*CFGS ASIR – equivalent to Level 5 VET Diploma*)
2023 – 2025

🗣 Languages

Spanish (Native) — English (B2)
